About Me

Passionate **Cloud & DevOps Engineer** specializing in **AWS Serverless** and **Backend Automation**. Proven ability to design scalable, cost-optimized systems using Lambda, Docker, and Python. Experienced in automating workflows and translating complex case studies into efficient cloud solutions.

Technical Proficiencies

- **Cloud & DevOps:** AWS (Lambda, S3, API Gateway, DynamoDB, EC2), Docker, Kubernetes, Terraform, Jenkins, Ansible
- **Languages:** Python, Java, C++, C, SQL, HTML/CSS
- **CS Fundamentals:** Operating Systems, DBMS, SDLC, Data Structures & Algorithms (DSA)
- **Tools:** Git, GitHub, Linux (Red Hat), Postman, VS Code

Industry Experience

- Cloud Intern (Completed)** — Technical Hub (Aditya Group) *May 2025 – June 2025*
- Deployed a 2-tier client-server architecture on AWS using **EC2** and **NGINX**.
 - Configured **VPC networking** and **IAM** roles/policies following least-privilege principles.
 - Automated infrastructure setup tasks, reducing deployment time from **2 hours to 30 mins**.
 - Collaborated with mentors and peers to deliver a production-ready cloud environment.

Featured Projects

- AWS Cloud-Native Blog API** — *FastAPI, Docker, Lambda, RDS* [GitHub Repository](#)
- **Problem:** High latency in serverless database queries caused by the "N+1" fetch problem.
 - **Solution:** Engineered a containerized REST API using **FastAPI** on **AWS Lambda**. Implemented SQLAlchemy **Eager Loading**, reducing database round-trips by **80%**.
- Serverless ATS System** — *Step Functions, API, Lambda, SQS, SES, Cognito* [GitHub Repository](#)
- **Problem:** Synchronous hiring workflows bottleneck and crash during high-volume recruitment drives.
 - **Solution:** Built an event-driven state machine using **AWS Step Functions**. Decoupled email notifications via **SQS & SES**, ensuring 99.9% system availability under heavy load.
- HireFusion AI** — *Lambda, Textract, Rekognition, DynamoDB, Comprehend, S3* [GitHub Repository](#)
- **Problem:** Manual resume screening is time-consuming, biased, and error-prone.
 - **Solution:** Automated a multi-modal pipeline triggered by S3 uploads. Integrated **Textract** for OCR and **Rekognition** for video analysis, reducing HR screening time by **50%**.

Coding Portfolio

- **LeetCode:** Solved 200+ Problems – leetcode.com/u/sayyadsameerm3
- **HackerRank:** 4-Star (SQL, Problem Solving) – hackerrank.com/sayyadsameerm3
- **CodeChef:** 2-Star Coder – [codechef.com/users/sayyadsameer](https://www.codechef.com/users/sayyadsameer)
- **GeeksForGeeks:** Solved 100+ Problems – [geeksforgeeks.org/user/sayyadsameer](https://www.geeksforgeeks.org/user/sayyadsameer)

Certifications

- **Red Hat Certified System Administrator (RHCSA)** – Red Hat
- **AWS Academy Cloud Developer** – Amazon Web Services
- **Oracle Certified Java Foundations Associate** – Oracle
- **Oracle Cloud Infrastructure (OCI) Architect Associate** – Oracle
- **HTML & CSS Certification** – Certiport

Education

- B.Tech, Computer Science** — Aditya College Of Engineering and Technology *2023 – 2027*
CGPA: 8.77
- Intermediate (MPC)** — Sasi Junior College **GPA: 9.60**
2021 – 2023
